# New York State Felony Processing Final Report Indictment through Disposition January – December 2010

This report provides summary information related to the processing of felony cases in New York State's superior courts and complies with Section 837-a of the Executive Law, which requires DCJS to collect and analyze statistical information on felony indictments and superior court informations (SCI) and on the disposition of those cases. The source of the data used in this report is a Felony Processing File derived from New York State's Computerized Criminal History (CCH) database. Reports issued prior to 2009 relied on data from the DCJS Indictment Statistical System, which has since been discontinued. Care should be exercised when comparing current statistics to statistics in the ISS-based reports. Other criminal justice statistical and research reports are available on the DCJS website:

## Felony Processing Report Series

### January – December 2010

This report presents statistics concerning the processing of felony cases in New York State's superior courts (see Criminal Procedure Law 10.10 and 10.20 for a description of the jurisdiction of superior courts). The report complies with a reporting requirement found in Section 837-a of the Executive Law (originally imposed as part of Chapter 603 of the Laws of 1973) that the Division of Criminal Justice Services (DCJS) collect and analyze statistical information on felony indictments and superior court informations (SCI) and on the dispositions of these felony cases.

Beyond complying with the reporting requirement, the intent of this statewide report, and similar reports for 66 prosecutors' offices in the state, is to supply useful and timely information to criminal justice practitioners and policy makers.

The source of the data used in this report is a "felony processing file" derived from New York State's criminal history records database, known as the Computerized Criminal History (CCH) system, which is maintained by DCJS. CCH is based on information concerning fingerprintable arrests (defined in New York State Criminal Procedure Law 160.10) transmitted to DCJS by law enforcement agencies in the State. In addition to information concerning the arrests, CCH contains information on the processing of the arrests by courts, local probation departments, some local jails, and the State Department of Corrections and Community Supervision (formerly the State Department of Correctional Services and the State Division of Parole).

The unit of count in the felony processing file and in the statistical tables in this report is the "defendant-indictment." When more than one defendant is charged in one indictment or SCI, each defendant is counted separately. If one defendant is charged in multiple indictments or SCIs, each indictment or SCI is counted separately. More than one indictment or SCI can be linked to a single arrest event and multiple arrests can be combined into one indictment or SCI. If an indictment or SCI is superseded by another, both are counted.

Cases in the felony processing file and in this report's statistical tables are categorized based on the most serious charge found in the indictment or SCI. For example, if a defendant is charged, in one indictment, with criminal possession of a controlled substance in the third degree (a Class B felony) and criminal possession of stolen property in the third degree (a Class D felony), the case would be categorized as a Class B drug felony.

The current felony processing file contains information about superior court cases opened from 2006 to the present and about cases closed from 2006 to the present that were opened at any time. The file replaces the Indictment Statistical System (ISS) database that was used to produce felony processing statistics from 1973 until 2008. ISS was a stand-alone database populated by data submitted to DCJS by prosecutors.

The felony processing file identifies the county in which the prosecution takes place as well as the prosecutor's office that prosecutes the case. The latter includes the 62 county District Attorneys, the New York City Office of Special Narcotics Prosecutor (OSNP), and three units within the State's Attorney General's Office. OSNP prosecutes cases in New York County (Manhattan) Supreme Court, but the cases the Office prosecutes can originate in any of New York City's five boroughs. In 2010, approximately 78 percent of cases prosecuted by OSNP originated in New York County. The prosecutorial units within the State's Attorney General's Office have state-wide jurisdiction.

Some of the statistical tables contain information on cases opened in superior court in 2010. Other tables contain information on cases that reached final disposition in 2010. Cases in these tables may be for indictments or SCIs from the same year or from previous years.

The superior court arraignment date is used to determine when the case was opened in superior court. The sentence date is the final disposition date for cases that ended with a conviction. For cases that end in a non-conviction disposition, the date of that disposition (acquittal, dismissal, etc.), is considered to be the date of final disposition.

## REPORT TABLES

Statistics in this report are based on data posted to the Computerized Criminal History database as of May 23, 2011. The report contains 21 statistical tables. Tables 1 through 18 present felony case processing statistics for New York State. Tables 19 through 21 present summary statistics for prosecutors' offices. The term "action" in this report refers to Indictments and to Superior Court Informations. Convictions for non-criminal offenses, such as violations and infractions as well as Youthful Offender adjudications, are included in convictions totals in this report. Cases where the defendant has been convicted, but not yet sentenced, are not included in the disposition tables in this report.
