

## **MONTHLY GIVE SHOOTING ACTIVITY REPORT**

### **Issue Date: July 9, 2024**

The state Division of Criminal Justice Services (DCJS) provides funding to police departments, district attorney's offices, probation departments and sheriff's offices in 21 counties outside of New York City through its Gun Involved Violence Elimination (GIVE) initiative. GIVE funds personnel, overtime, technology, and equipment, and DCJS provides focused training and technical assistance, so participating agencies can address shootings, shooting deaths and firearm-related violent crimes.

There are 28 police departments in those counties that are required to report shooting incidents involving injuries, the number of individuals shot, and the number of individuals killed by gun violence to DCJS. Those agencies are divided into two tiers:

- Tier I police departments focus on reducing the number of shootings and fatalities: Albany, Buffalo, Hempstead, Mount Vernon, Nassau County, Newburgh, Niagara Falls, Poughkeepsie, Rochester, Schenectady, Suffolk County, Syracuse, Troy, Utica, and Yonkers.
- Tier II police departments focus on reducing firearm-related violent crimes (murder, rape, robbery, aggravated assault): Amherst, Auburn, Binghamton, Cheektowaga, Elmira, Greece, Ithaca, Jamestown, Kingston, Lackawanna, Middletown, Spring Valley, and Watertown.

This report presents the three shooting data metrics individually and collectively for Tier I police departments, and collectively for Tier II police departments.

**Note:** *Binghamton, Jamestown, Kingston, Middletown, and Spring Valley have participated in GIVE since it began in 2014. DCJS expanded the initiative in 2023 to include Amherst, Auburn, Cheektowaga, Elmira, Greece, Ithaca, Lackawanna, and Watertown.*

#### **Highlights:**

**Through June 2024, the 28 police departments collectively reported 283 shooting incidents involving injury, down 27 percent when compared to January – June 2023 (388).**

**The number of individuals shot through June 2024 decreased 23 percent (356) when compared to January – June 2023 (464).**

**In the month of June 2024, there were 14 individuals killed by gun violence, compared to 11 in June 2023. Syracuse (5) Rochester (3), Buffalo (2), Albany (1), Elmira (1), Newburgh (1) and Poughkeepsie (1) accounted for the 14 shooting-related homicides.**

**Annual firearm data for GIVE agencies for the 10-year period 2014 through 2023 are available online: <https://www.criminaljustice.ny.gov/crimnet/ojsa/stats.htm#gunviolence>**

## Data Definitions

**Shooting Incidents Involving Injury or Death:** The number of shooting incidents that resulted in one or more persons injured or killed by a bullet. These data do not include shooting incidents determined to be non-criminal (i.e., accidental discharge or justifiable homicide).

**Shooting Victims:** The number of individuals shot by a bullet; this total includes the number of individuals who died as a result of being shot by a bullet.

**Individuals Killed by Gun Violence:** The number of shooting-related homicides.

## Interpreting the Data

The graphs and data tables for the sample city present 12 months of data for the previous year (2023), the Five-Year Average (2019-2023) for the months indicated, and monthly data for the current year-to-date (2024). 5-Year Averages are rounded to the nearest whole number in tables. Months beyond the current reporting period will display zeros, as that information is not yet available.

In this example, the 2024 year-to-date reporting period for Sample City is January and February. Since the reporting period for 2024 is limited to those two months, zeros are displayed for the remaining months in the year (March through December). In January 2024, the number of shootings (4) is higher than January 2023 (2), and higher than the five-year average for that month.
