Introduction

The 2020-21 Annual Probation Plan and Application presents an opportunity for Probation leaders to assess their department operations, staffing, training needs, and community resources.

As part of the 2020-2021 planning process, Probation Departments will again review and consider important juvenile and criminal justice data in order to better plan and coordinate interventions, the effective use of local and state criminal justice resources, and funding with the goal of reducing offender recidivism, effectuating offender behavioral change, reducing unnecessary reliance on incarceration, and reducing victimization through the use of evidence-based practices.

Additionally, this information will be utilized to inform training and policy at the state level. It is the goal of OPCA to compile the information that is provided and return it to the counties.

ALL OF THE QUESTIONS IN THIS APPLICATION MUST BE ANSWERED IN THEIR ENTIRETY AND SUBMITTED TOGETHER .

2020-21 Annual Probation Plan and Application

Instructions

- 1) **Section A: Local Juvenile/Criminal Justice Data Review and Planning** - This section will provide for a self-review of each jurisdiction's data, and inform the jurisdiction's 2020-21 criminal/juvenile justice strategy development and implementation as described in that section. Please refer to the data package which accompanies this plan/application when completing this section. **Last year's data package is hyperlinked in Section A for your reference.** All tables and questions in this section must be completed. Increasingly, many jurisdictions are being asked to develop annual goals and objectives by their County Executives. This data may be useful to demonstrate the positive impact of the Probation Department as well as assist the Probation Department with seeking additional resources to address identified problem areas.
- 2) **Section B: Local Program Inventory** – This inventory consists of two parts. The first part is the identification of programs that were available during 2019. The second part is the completion of the programming to be maintained, expanded, eliminated, or developed during 2020-21 based on the data and questions addressed in Section B, as well as the availability of resources. It is intended that this program inventory will enable each locality to determine whether or not appropriate services are available to support its' identified juvenile and criminal justice 2020-21 strategy.
- 3) **Section C: Local Probation Training Inventory** – This section identifies the specific types of training probation departments have attended in the prior year and the areas in which training is needed in 2020-21 in order to support the locality's juvenile and criminal justice strategies. This process will enable localities to pursue and consolidate training opportunities where appropriate. Attachment A, which lists current staff members who have received training in the NIC *Thinking For a Change* Curriculum, the *Offender Workforce Development Specialist Program*, Motivational Interviewing, and other cognitive-behavioral intervention programs should also be completed and sent as part of your plan. This information will inform DCJS/OPCA's annual training program, and the Statewide Probation Training Committee, and be used to develop a statewide database training portfolio for each probation officer .
- 4) **Section D: Juvenile Services** - This section identifies the use of the state approved assessments within departments.
- 5) **Section E: Focal Issues** – This section captures data and information regarding important issues regarding the probation profession.
- 6) **Section F: Crime Victim Services** – This section captures information regarding services to victims as part of the provision of probation services.

Table 1: Using the data found in the "2019 YASI Assessments" table of the attached Appendix A: 2020-21 Probation Analysis and Planning File, complete the following table to reflect the number YASI assessments completed by your probation department in 2019.

Note: the NYC Department of Probation shall reference their data and procedures relating to the use of the Y-LSI in Table 1 and all related questions.

Table 1: 2019 YASI Assessments

| Agency | Initial Assessments (Pre-Screen or Full) | Re-Assessments | Case Closures (Final Reassessment) | Total YASI Assessments Completed |
|-------------|--|----------------|------------------------------------|----------------------------------|
| County/City | | | | |
| Non-NYC | 8,175 | 8,652 | 5,553 | 22,380 |
| NYC (Y-LSI) | | | | |

1. Comparing the assessment numbers from the 2018 (as found in Table 1 of the prior year’s annual plan data package) to the 2019 assessment numbers, has there been any changes in your county in terms of the numbers of initial assessments, reassessments, and case closure assessments in your county?

Please provide your analysis for any change(s):

2020-21 Annual Probation Plan and Application

Table 2: Using the data found in the “Juvenile Workload Volume” table of the attached Appendix A: 2020-21 Probation Analysis and Planning File, please complete the following table to reflect the 2018 Juvenile Workload Volume for your county/City.

Table 2: 2018 Juvenile Workload Volume

| | 2018 | | | | 2018 | | |
|-------------|--------------------|----------------------------|-------------------------------|--|------------------|--------------------------|-----------------------------|
| | PINS Intake Opened | PINS Investigations Opened | PINS Supervision Cases Opened | | JD Intake Volume | JD Investigations Opened | JD Supervision Cases Opened |
| County/City | | | | | | | |
| Non-NYC | 3,442 | 750 | 557 | | 5,121 | 1,282 | 972 |
| Statewide | 3,442 | 762 | 567 | | 8,509 | 1,891 | 1,783 |

2. Juvenile Workload Volume - Using the data presented in Table 2 for 2017 (as found in the prior year’s annual plan data package) and 2018, has the Juvenile Workload Volume changed?

Please provide your analysis for the change(s)?

Table 3A: Please complete the following table using the data found in the “2018 Juvenile Adjustment Rates” table of the attached Appendix A: 2020-2021 Probation Analysis and Planning File.

Table 3A: 2018 Juvenile Adjustment Rates [JD] *(Use Decimal Point When Entering Percentages)*

| | # JD Cases Closed | JD Intake Cases Closed – Excludes Immediate Referrals | Adjustment Rate Including All Closed Cases | Adjustment Rate Excluding Immediate Referrals |
|-------------|-------------------|---|--|---|
| County/City | | | | |
| Non-NYC | 5,188 | 2,791 | 44% | 82% |
| Statewide | 8,690 | 3,998 | 38% | 82% |

3. Intake Adjustment Rate- Using the data presented in Table 3A for 2017 (as found in the prior year’s annual plan data package) and Table 3A for 2018 to compare the adjustment rate, what changes have occurred in your jurisdiction in terms of the JD adjustment rates.

How do they compare with the non-NYC rates?

2020-21 Annual Probation Plan and Application

How do they compare with the state-wide rates?

Please provide your analysis of any observed change in the adjustment rate, and identify any factors or initiatives which may have contributed to such changes.

New York City Intake Adjustment– *(to be completed by the NYC Department of Probation only)* Please compare your JD Adjustment rate for 2018 with the Statewide rate. How does your rate compare with the Statewide rate?

Briefly describe any plans that the NYC Department of Probation may undertake in 2020-21 to further increase the rate of adjustment:

| Rest of State* | 4,074 | 2,865 | 2,102 | 52% | 73% |

*All Probation Departments that provide PINS Intake/Diversion services reported on the OP30.

4. Intake Successful Diversion Rate- For departments that provide PINS Intake/Diversion Services, how do your rates compare with the Rest of State?

Please provide your analysis of the successful diversion rates, and identify any factors or your initiatives which may have contributed to the rate.

NYC DOP or other departments that do not provide PINS Intake/Diversion services, please enter N/A for this question.

2020-21 Annual Probation Plan and Application

Table 4A: Please complete the following table using the data found in the “2018 Juvenile Probation Supervision Cases Closed” table of the attached Appendix A: 2020-21 Probation Analysis and Planning File.

Table 4A: 2018 Juvenile Probation Supervision Cases Closed (PINS) *(Use Decimal Point When Entering Percentages, such as .95)*

| | 2018 | | | | | |
|-------------|-------------------------|--------------------|--------------------|-----------------------|--------------------|--------------------|
| | Total PINS Cases Closed | % Positive Outcome | % Negative Outcome | Total JD Cases Closed | % Positive Outcome | % Negative Outcome |

| Non-NYC | 606 | 62% | 98 | 10% | 221 | 23% | 57 | 6% | 982 | |
| Statewide | 1,074 | 56% | 129 | 7% | 475 | 25% | 234 | 12% | 1,912 | |

- 5. Probation Supervision and Outcomes-** In reviewing the 2018 data presented in Table 4A and 4B, please comment on your positive and negative outcomes for both PINS and JD rates (4A) as well as the closing reasons for JD matters (4B).

If you have a high rate of positive outcomes in 2018, what strategies or factors may have contributed to that result in your jurisdiction?

2020-21 Annual Probation Plan and Application

If a high negative outcome rate(s) occurred in 2018, what actions have the department taken to address this issue and what barriers still exist to improve outcomes? Please comment specifically on the number and percent of probation violations/revocations and the departments actions to reduce this number.

Tables 5 and 6: Please complete the following table, using the data found in the “Detention Admissions and Care Days” 2017 and 2018 tables of the attached Appendix A: 2020-21 Probation Analysis and Planning file.

Tables 5 and 6: Detention Admissions and Care Days

| County/City | JD/JO (Youth) | | PINS (Youth) | | Total (JD/JO, PINS) | | JD/JO | PINS |

| | # | % | # | % | # | % | | |
| 2017 | | | | | | | | |
| 2018 | | | | | | | | |

6. Reviewing the table for *Detention Admissions and Care Days for 2017 and 2018*, please indicate the change, if any, of use in your county?

Please provide your analysis for an increase or decrease:

Table 7: Starting with the 2020-2021 Annual Probation Plan and Application, OPCA has added a new chart for Adolescent Offender Detention and Care Days for the calendar year 2018. This chart will appear in future annual plans. As this chart only reflects the limited numbers of 16-year-old AO youth for the period of October 1 – December 31, 2018, Probation departments are not requested to provide an analysis of this data for the 2020-2021 Annual Plan. However, if the department would like to provide any feedback regarding AO Detention/Care Days, please provide your feedback below.

2020-21 Annual Probation Plan and Application

8. Reviewing the chart for *Local District of Social Services PINS Admissions By County 2014 to 2018*, do these numbers reflect any trend for PINS admissions in your county over the past five years?

Please describe actions or circumstances that may have impacted this trend:

9. What programs are in place to address: detention, intake/diversion, and supervision of PINS youth, JD youth, and Adolescent Offenders? Please indicate which JD/AO programs are Raise the Age funded by DCJS (STSJP funded initiatives are reported in the next question)

- 10a. If your department is a partner or utilizing STSJP (Supervision and Treatment Services for Juveniles Program) funding from OCFS, please advise what services have been implemented through this funding stream in your county to reduce detention and placements:

- 10b. Is Probation the lead STSJP agency?

2020-21 Annual Probation Plan and Application

11.a. Programs and Services- What are the top three present challenges in your county regarding juveniles (examples: truancy, interactions within the family, substance abuse, mental illness, gangs, criminal associates, etc.)?

Are there sufficient program/services in your county address juvenile justice needs?

If not, what types of programs/services would help in your community?

11b. 2020-21 Future Strategies – Given the analysis of the juvenile justice data above , please advise what systems issues exist within your jurisdiction and advise on any strategies to improve your juvenile justice system:

2020-21 Annual Probation Plan and Application

11c. What guidance/resources might be helpful to implement such strategies?

12. Is your department using Juvenile Substitute Contacts for JD or PINS probation supervision cases - pursuant to 9 NYCRR Part 351, Section 351.6(b)?

If yes, which agencies and programs within your jurisdiction do you use when implementing Juvenile Substitute Contacts?

12b. Why were these agencies selected and what is the evidence to demonstrate they have positive outcomes in working with juveniles?

Case Planning for Probation Supervision Cases for Family Court/Youthful Offenders (YO)

13. Please indicate which case plan format your Department utilizes with probation supervision cases for Family Court/YO Cases:

Note: CE Planning Product is a separate case planning module. If using the Case Plan in CE, select PRCR.

If “Local Case Plan or Other” is selected – Please provide a copy to OPCA with the submission of this data package.

14. The following case planning items are evidenced-based practice which are codified in DCJS regulation. Please indicate which of the following items are addressed in local written policy and have been implemented in practice. If any of these items are not checked, please advise us of the barriers to implement and if there is any assistance OPCA can provide:

Efforts to engage the probationer and their family.

Provided feedback of the assessment results to the client.

Use of risk and needs assessment(s) results to inform the action steps, short term and longer term goals.

Determine level of motivation to change.

Use of Motivational Interviewing to engage the client.

Match case planning goals and strategies to probationer's level of motivation to change.

Documented review and approval of assessment results of the case plan by the Probation Supervisor.

Comment:

15. The following case review activities are evidenced-based practices which are codified in DCJS regulation. Please indicate which of the following activities are addressed in local written policy and have been implemented in practice. If any of these items are not checked, please advise us of the barriers to implement and if there is any assistance OPCA can provide:

Conduct case review every 3 months for active juvenile cases, 6 months for active criminal cases, or every 12 months for administrative cases.

Conduct reassessment or case review utilizing a state approved risk and needs assessment or case review instrument.

Review of compliance with all required contacts and documentation in the case file.

Where applicable, review of documented participation in merit credit activities and documentation.

Review of compliance with the conditions of probation as well as progress towards achieving the case plan goals, objectives, and action steps.

Consideration of the following options: modification of the case plan; reclassification of the supervision level; modification of the conditions of probation; and/or where applicable, merit credit eligibility.

16a. Comparing the assessment numbers from the 2018(as found in Table 9 of the prior year’s annual plan data package to the 2019 assessment numbers, has there been any changes in your county in terms of the numbers of pretrial, initial assessments, and reclassification?

Please offer your analysis for any change(s):

16b. How do you ensure Case Supervision reviews are conducted as required by regulation?

2020-21 Annual Probation Plan and Application

Table 11: Complete the following table, using the data found in the “New Probationers Received: 2019” table of the attached Appendix A: 2019-20 Probation Analysis and Planning File and the data from last year’s table.

Table 11: 2019 New Probationers Received

| | Sentenced Misdemeanors | Sentenced Felonies | Interim Supervision | Other | Total |

| County/City | | | | | |

17. In comparison to the 2018 New Probationers Received table (table 10 in the prior year's annual plan data package) has your jurisdiction experienced any significant changes to the number of New Probationers received in any of these categories?

Please offer your analysis for any change:

Table 12: Complete the following table, using the data presented in the “Violations of Probation Filed and Recorded in IPRS: 2019” table found in the attached Appendix A: 2020-21 Probation Analysis and Planning File.

Please note that the number of Total Probation Cases in this table includes the total number of active cases open for any portion of 2019. Further, VOP’s filed are counted once in this table according to the following hierarchy: New Conviction, Technical Arrest, Absconded, Other Technical.

Table 12: Violations of Probation Filed: 2019 (Use Decimal Point for %)

| | Total Probation Cases | Total Cases with Violation Filed | % of Cases with Vio- lation Filed | New Conviction | % | Technical Arrest | % | Absconded | % | Other Technical Violation | % |
|-----------------|-----------------------------|--|---|-------------------|----|---------------------|-----|-----------|-----|---------------------------------|-----|
| County/ City | | | | | | | | | | | |

18. Probation Violation Rates

What is your jurisdiction's percentage of open cases with violations filed in 2019?

Please offer any observations from within the jurisdiction which may have affected this rate, and any strategies to address this rate:

Counties outside of NYC : How does your % of cases with Violations Filed compare with non-NYC and statewide rates?

NYC Department of Probation: How does your % of cases with Violations Filed compare with the Statewide rate?

2020-21 Annual Probation Plan and Application

Table 13: Complete the following table, using the data presented in the “Probationers Re-sentenced for a Violation of Probation: 2019” report found in the attached Appendix A: 2020-21 Probation Analysis and Planning File.

Table 13: Probationers Re-sentenced for a Violation of Probation: 2019 *(Use Decimal Point for %)*

| | Jail | | Prison | | Other | | Total Offenders Re-Sentenced | Total Probationers | Re-Sentenced Rate |
|-------------|-------|-------------------------|--------|-------------------------|-------|-------------------------|------------------------------|--------------------|-------------------|
| | # | % of Total Re-Sentenced | # | % of Total Re-Sentenced | # | % of Total Re-Sentenced | | | |
| County/City | | | | | | | | | |
| Non-NYC | 4,539 | 80.9% | 712 | 12.7% | 360 | 6.4% | 5,611 | 83,233 | 6.7% |
| Statewide | 5,304 | 81.8% | 772 | 11.9% | 405 | 6.2% | 6,481 | 122,031 | 5.3% |

19. Probationers Re-Sentenced for a Probation Violation- What is your jurisdiction’s violation re-sentence rate for 2019?

Counties outside of NYC : How does your violation re-sentence rate compare with the non-NYC and statewide rates?

NYC Department of Probation: How does your violation re-sentence rate compare with the statewide rate?

20. If your "other technical violations rate" indicated in table 12 is greater than 42% (non NYC total) and if your "re-sentenced rate" indicated in table 13 is greater than 6.7% (non NYC total) please explain?

2020-21 Annual Probation Plan and Application

Table 14: Complete the following table, using the data presented in the “Adult Supervision Outcomes: 2019 Case Closures” table found in the Appendix A: 2020-21 Probation Analysis and Planning File.

Table 14: Adult Supervision Outcomes: 2019 Case Closures for Sentenced Individuals

| | Total Probationer Outcomes | Early Discharge | | Maximum Expiration | | Total Positive | | Negative Outcome | | Neutral Outcome | |
|-------------|----------------------------|-----------------|-------------------|--------------------|-------------------|-----------------|-------------------|------------------|-------------------|-----------------|-------------------|
| | | Number Closed | % of Total Closed | Number Closed | % of Total Closed | Number Positive | % of Total Closed | Number Negative | % of Total Closed | Number Neutral | % of Total Closed |
| County/City | | | | | | | | | | | |
| Non-NYC | 24,660 | 5,594 | 22.7% | 8,480 | 34.4% | 14,074 | 57.1% | 7,506 | 30.4% | 3,080 | 12.5% |
| Statewide | 31,272 | 6,615 | 21.2% | 12,894 | 41.2% | 19,509 | 62.4% | 8,567 | 27.4% | 3,196 | 10.2% |

21. Positive Outcomes- What is your rate of positive outcomes for individuals under criminal court probation supervision (Table 14)?

The neutral outcome number is based upon interim cases that were closed as *returned to court for further action* – this closure may be either a positive or negative outcome depending upon the case. If your department had a large number of interim cases closed with this neutral outcome, based upon your experience, how would this neutral outcome number influence your overall positive or negative outcomes numbers for the department? For example, if the positive percentage was 33%, the negative percentage was 33%, and the neutral percentage was 34% (with the majority of the interim cases closed as positive based upon your experience) you might estimate that your positive percentage would actually be closer to 62%.

Counties outside of NYC : How does this compare with the non-NYC and the statewide rates?

NYC Department of Probation: How does this compare with the statewide rate?

22. Early Discharges- What is your jurisdiction’s rate of Early Discharge from Probation Supervision in 2019 as indicated in Table 14?

2020-21 Annual Probation Plan and Application

22b. Please describe any change in early discharge rates that your department experienced compared to 2018, and any reasons for such change. If you have high maximum closure and a low early discharge rate, please explain why and what actions the Department has taken to address this? What actions, if any, has your department taken in convening meetings with Judges, Prosecutors, Defense Counsel in your county/city?

22c. *Counties outside of NYC* : How does this compare with the non-NYC and the statewide rates?

22d. *NYC Department of Probation*: How does this compare with the statewide rate?

Case Planning for Court-Ordered Probation Supervision Cases – Criminal Court (Non-YO)

23. Please indicate which case plan format your Department utilizes with criminal court (Non-YO) supervision cases:

CE Planning Product is a separate case planning module. If using the Case Plan in CE, select PRCR.

If “Local Case Plan or Other” is selected – Please provide a copy to OPCA with this submission.

24. The following case planning items are evidenced-based practice which are codified in DCJS regulation. Please indicate which of the following items are addressed in local written policy and have been implemented in practice. If any of these items are not checked, please advise us of the barriers to implement and if there is any assistance OPCA can provide:

Efforts to engage the probationer and their family. -

Provided feedback of the assessment results to the client.

Use of risk and needs assessment(s) results to inform the action steps, short term and longer term goals.

Determine level of motivation to change.

Use of Motivational Interviewing to engage the client.

Match case planning goals and strategies to probationer’s level of motivation to change.

Document review and approval of assessment results of the case plan by the Probation Supervisor.

2020-21 Annual Probation Plan and Application

Table 15: Complete the following table, using the data presented in the “Probation Cases Past Maximum Expiration Date” table found in the attached Appendix A: 2019-20 Probation Analysis and Planning File.

Please note that this table presents a “snapshot” of information as reflected in IPRS as of the date indicated on the report.

Table 15: Probation Cases Past Maximum Expiration Date: 2019

| | Total Cases Active on IPRS as of 12/31/2019 | Cases with DOD and VOP Filed | | Cases without DOD and VOP Filed | | Cases in IPRS with VOP reason of Absconder | |
|--------------------|---|-------------------------------|---|---------------------------------|--|--|---|
| | | Cases past Maximum Expiration | % of Active Cases past Maximum Expiration | Total #Cases >MED Closable | % of Active Cases past Maximum Expiration* | # Cases with Open VOP for Absconding | % Active Cases with Open VOP for Absconding |
| County/City | | | | | | | |
| Non-NYC | 66,445 | 5,586 | 8.4% | 1,151 | 1.7% | 3,423 | 5.2% |
| Statewide | 98,586 | 17,410 | 17.7% | 2,055 | 2.1% | 12,395 | 12.6% |

Probation Warrants and Case Closings- Using the data presented in Table 15, please answer the following:

27. What is your probation department’s % Active Cases > MED with DOD ?

Do these cases represent active warrants in your jurisdiction?

What action(s) has your jurisdiction taken or will be taking to reduce the number of active probation warrants for absconders? Please compare the number of probation warrants in your jurisdiction between 2019 and 2018.

28. What is your probation department’s % Active IPRS Cases Closeable without Declaration of Delinquency and Violation Filed?

These represent cases that should be closed in the Integrated Probation Registrant System. This % Active IPRS Cases Close-able should be as close to zero as possible. If it is above 5% what action(s) is your jurisdiction taking to reduce the number?

2020-21 Annual Probation Plan and Application

Note: The % Active IPRS Cases Closeable (“Threshold Report”) requires certification by the Probation Director that your departmental rate is less than 5%. Please be sure to check that your department threshold rate is below 5% and as close to 0% as possible before executing the certification. How does the threshold rate in 2018 compare to the rate for 2019?

Any new strategies result in a decrease or issues that have resulted in an increase?

Planning and Strategies

29. Programs and Services- Are there sufficient program/services in your jurisdiction to address the needs of your criminal court probationers?

If not, what types of programs/services are needed in your county (examples: substance abuse services, mental health services, sex offender treatment, cognitive behavioral programming, pre-trial services, etc)?

2020-21 Annual Probation Plan and Application

30. 2020-21 Future Strategies –Considering the target areas identified by the questions above (for example Risk and Need Assessment, supervision outcomes, case planning, and reducing violations) please describe any strategies which you plan to employ in 2019-20 to reduce recidivism and improve public safety, and improve the Criminal Justice outcomes in your jurisdiction.
