NEW YORK STATE | Division of Criminal Justice Services

MONTHLY GIVE SHOOTING ACTIVITY REPORT
Issue Date: October 13, 2026

The state Division of Criminal Justice Services (DCJS) provides funding to police departments, district attorney's offices, probation departments and sheriff's offices in 21 counties outside of New York City through its Gun Involved Violence Elimination (GIVE) initiative. GIVE funds personnel, overtime, technology, and equipment, and DCJS provides focused training and technical assistance, so participating agencies can address shootings, shooting deaths and firearm-related violent crimes.

There are 28 police departments in those counties that are required to report shooting incidents involving injuries, the number of individuals shot, and the number of individuals killed by gun violence to DCJS. Those agencies are divided into two tiers:

- Tier I police departments focus on reducing the number of shootings and fatalities: Albany, Buffalo, Hempstead, Mount Vernon, Nassau County, Newburgh, Niagara Falls, Poughkeepsie, Rochester, Schenectady, Suffolk County, Syracuse, Troy, Utica, and Yonkers.

- Tier II police departments focus on reducing firearm-related violent crimes (murder, rape, robbery, aggravated assault): Amherst, Auburn, Binghamton, Cheektowaga, Elmira, Greece, Ithaca, Jamestown, Kingston, Lackawanna, Middletown, Spring Valley, and Watertown.

This report presents the three shooting data metrics individually and collectively for Tier I police departments, and collectively for Tier II police departments.

Note: *Binghamton, Jamestown, Kingston, Middletown, and Spring Valley have participated in GIVE since it began in 2014. DCJS expanded the initiative in 2023 to include Amherst, Auburn, Cheektowaga, Elmira, Greece, Ithaca, Lackawanna, and Watertown.*

GIVE Highlights:

- Through September 2026, the 28 GIVE police departments collectively reported 329 shooting incidents involving injury, down 16 percent when compared to January - September 2025 (392).

- In GIVE agencies, the number of individuals shot through September 2026 (396) decreased 13 percent when compared January - September 2025 (453).

- Through September 2026, GIVE agencies reported 52 individuals killed by gun violence, down 22 percent when compared to January - September 2025 (67).

Annual firearm data for GIVE agencies is available using our interactive GIVE Shooting Activity Dashboard: https://criminaljustice.ny.gov/gun-violence-data

Data Definitions

Shooting Incidents Involving Injury or Death: The number of shooting incidents that resulted in one or more persons injured or killed by a bullet. These data do not include shooting incidents determined to be non-criminal (i.e., accidental discharge or justifiable homicide).

Shooting Victims: The number of individuals shot by a bullet; this total includes the number of individuals who died as a result of being shot by a bullet.

Individuals Killed by Gun Violence: The number of shooting-related homicides.

Interpreting the Data

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2026	4	2										
2025	2	1	1	3	1	2	0	0	8	6	8	2
5-Year Avg (2021-2025)	1	2	2	4	3	4	4	5	4	1	1	3

The graphs and data tables for the sample city present 12 months of data for the previous year (2025), the Five-Year Average (2021-2025) for the months indicated, and monthly data for the current year-to-date (2026). 5-Year Averages are rounded to the nearest whole number in tables. Months beyond the current reporting period will display zeros, as that information is not yet available.

In this example, the 2026 year-to-date reporting period for Sample City is January and February. Since the reporting period for 2026 is limited to those two months, no data are displayed for the remaining months in the year (March through December). In January 2026, the number of shootings (4) is higher than January 2025 (2), and higher than the five-year average for that month.

Gun Involved Violence Elimination (GIVE)
